

A hand-drawn technical diagram of a circular mechanical assembly, likely a ring or gasket. The diagram shows a cross-section of a ring with a central hole. The ring has a thick, multi-layered structure. A central vertical component, possibly a pin or bolt, is shown passing through the ring. The diagram is labeled with various numbers and symbols: 10 (overall assembly), 12 (outer ring), 14 (central component), 15 (nut/bolt head), 16 (inner ring), 17 (flange), 18 (inner hole), 20 (inner hole), 22 (inner hole), 24 (inner hole), 26 (inner hole). Section lines 3-3 are indicated on the left and right sides of the ring.
